Summer Event III

One day, a snail walked (slithered?, slimed?) into a Honda dealership looking for a new car. After touring the lot, he decided on a sporty new S2000. He negotiated a sales price with a salesman, filled out the paperwork, and was handed the keys. As he zoomed off the lot in his new car, squealing tires as he cornered out of the driveway, one of the watching salesmen exclaimed "Wow, look at that S-car-go!"

This month, many of us watched an "S" car go, specifically the one driven by Marc and Dave McCombs. Marc pulled in Top Time of Day AND top PAX time. Dave was only slightly behind, finishing 5th raw and 6th PAX. In raw times, Joe Curry slid in just 45 thousandths behind Marc--the battle of the S2000 power plants. Second place PAX stayed in the Honda family with Mark Goerner and his Integra. Steve Ryan claimed 3rd with the only Corvette in the top 20 and the only American car with a single digit PAX ranking. Mark Eddy drove the family Subaru to a 4th place PAX finish with the other half of the family finishing 8th. The top 5 were rounded out by Joshua Sorter and another Subaru--not bad for a driver who was a novice in the last series!

This month's course was courtesy of Kris Tvedt. We were not sure what it meant when he didn't even stay long enough to race on his own course! Nonetheless, most everyone seemed to enjoy the course. More than likely, the tire manufacturers loved the course, based on the large number of turns. We, and our tires, were given a slight break from the July heat with some light cloud cover, but there was still lots of water going on the tires between runs. All in all, it's hard to imagine a better way to spend a Sunday.

Hopefully, this whetted your curiosity and you're anxious to browse through the [results](#). For the record, there were a total of 67 scored competitors and 34 TOs.
